

Natural

Our photography is based on two key requirements of great wedding images. Firstly the technical skills to ensure we capture gorgeous pictures which are well composed and artistically pleasing. Secondly and most important are the people skills to ensure you are laughing, having a wonderful time and looking great in your pictures.

Your wedding day is one of the most important days of your life - our aim is to capture all the emotion of your day as it happens without forcing you into unnatural poses. The day speeds by fast and traditional photography can take up a lot of your time, so we aim to work quickly capturing events in real time rather than spending hours posing you for staged photographs.

Our speciality is capturing wonderful images of the bride & groom, their families & friends, laughing, crying, and sharing those special glances and moments together.

Most couples do want to have a small number of formal group photos, usually of close family and friends, so we provide a template list of suggested groups. You are free to edit this if there are special images which you would like to have taken on the day.

When choosing a photographer for your wedding, consider

- (1) Photography - do they take the type of photographs you really love?
- (2) Personality - do you like them? Are they people you would like at your wedding?
- (3) Presentation - do they provide albums you will treasure for a lifetime?
- (4) Price - does their pricing fit in with your intended budget?

If you have any questions after reading this brochure or would like to discuss your needs in detail then please call us. We will be happy to meet up, chat about your plans, show you some of our gorgeous albums and discuss how we can capture wonderful memories of your day for you. We can also give you a free copy of our 40 page colour booklet "The Bride's Guide to Wedding Photography".

Contemporary

A key aspect of our success as wedding photographers is our ability to fit in at weddings and to get on with you & your guests. We dress appropriately in wedding attire and are often asked if we are friends of the bride & groom as we seem to get on so well.

We offer a pre-wedding shoot in all our packages. This allows us to meet with you again before the wedding, usually at the venue so we can walk through the day with you and note any special locations for photographs. We also take natural, informal photos of you together, encouraging you to relax with each other, have a laugh and enjoy the experience.

Many brides-to-be have told us how they dislike pictures of themselves, but have become much happier once they see how good they look in their pre-wedding shoot photos. This builds up your confidence on the day so that you don't have to worry about your photos - you can just get on and enjoy the party. A happy, smiling couple having a wonderful time allows us to capture fantastic images and fabulous memories for you.

We work as a husband & wife team, providing 2 photographers at each wedding. This allows us to capture the preparations of both bride & groom before the ceremony. Many grooms see our "reservoir dogs" style images and then have fun with their mates starring in their own cool photographs.

As a team of two photographers we can work quickly, taking many pictures when people are unaware of the camera and are therefore more natural in their expressions and emotions. We cover your whole day typically from 2 hours before the ceremony, the ceremony itself, reception, speeches & cake cutting, up to and including the first dance in the evening. After that, once the alcohol kicks in for your guests, you really don't want those images in your album!

Stylish

As part of our unique level of service we run a slideshow of the day's best images on a laptop during an evening reception. We also present you with a "going-away" album of 12 prints before we leave, which is ideal for reliving the day while you are away on honeymoon.

Once you return from honeymoon we invite you to view your proof images on our large screen display and present you with your proof album book and DVD slide show of all the proof images. This is typically around 400 photos. We also publish them in a private gallery on our web site where family & friends can view the pictures and order reprints directly if they wish. You can then choose the images for your album at your leisure.

We offer a choice of high quality traditional or modern story book albums and samples of these can be viewed when we meet. We can also provide parent albums and gallery display prints for your home if required.

We are very flexible in our approach and reflect this in our packages. If you would like something slightly different please call us for a customised quotation.

New for 2010

We now have a purpose built photographic studio in Frimley and are pleased to offer lifetime free portrait shoots for all of our brides & grooms. A high proportion of our couples have children within a year or two of the wedding and we offer a welcoming family atmosphere for contemporary & stylish baby, toddler and family portraits.

Memories

Booking

To ensure we capture wonderful memories from your day, complete the attached booking form and return it to us with your £250 retainer. Alternatively call us and we can confirm your date and booking using a credit or debit card over the phone.

Please bear in mind we only photograph one wedding per day and many popular dates are booked 12 months or more in advance. Other dates can be booked at much shorter notice. Call now to check our availability for your wedding day.

Please note we are unable to hold dates without the completed contract & retainer.

Our packages are totally flexible - you can swap and change any items or even complete packages at any time. As our coverage on your day is exactly the same in every package, you can simply book the date now and choose your package after the wedding, after you have seen the photographs.

When you know exactly how many photos you want to have in your album, then you can choose the exact package to meet your requirements.
